CAPO on 2nd Fret

INTRO: G Dm9 Am F C

G
I've got a new choice to make
Am G Am
I'm tired of my yesterdays looking just like today always the same
G Am
Been reading familiar lines hoping to renew my mind
G Am
with color of the phrases, red and black on wrinkled pages

G Dm9 Am F C
You say oh hold on, live your life like you won't be long here
G Dm9 Am F C
This could all be over now don't let regrets come crashing down
G Dm9 Am F C
You say oh hold on, live your life like you don't belong here
G Dm9 Am F C
Don't you know you'll never get another try this side of your life

G Am
Been walking at a backwards pace watching aspirations fade
G Am
Like a falling star and a meteor I'm burning out
G Am
But the echoes of the words you say they wake me like an earthquake
G Am
You inspire me, inspire me with your words

G Dm9 Am F C
You say oh hold on, live your life like you won't be long here
G Dm9 Am F C
This could all be over now don't let regrets come crashing down
G Dm9 Am F C
You say oh hold on, live your life like you don't belong here
G Dm9 Am F C
Don't you know you'll never get another try this side of your life
